

CHASE LINDSAY

FULL-STACK DEVELOPER

ABOUT ME

My mission is to positively impact the world through code. I strive to continuously improve myself and the lives of others around me. I worked in NYC as an adtech analyst for three years and subsequently explored the world. I have traveled to more than 35 countries and have learned about many different cultures and ways of life. Along the way, I discovered my passion for programming and decided to attend a software engineering bootcamp. As a graduate from, Le Wagon, the world's highest rated full-stack coding bootcamp, I'm ready for a new challenge to broaden and strengthen what I have learned as a developer.

TALENT AND SKILLS
